## CAPABILITY STATEMENT

---

### Company Overview

The Vision at MGS is to operate a national enterprise focused on specialty trailers and related products. MGS has created a planning culture, which centers on our mission to provide the best total solution for our customers, clients and alliance partners. Since established in 1962, MGS has satisfied numerous requests to design and manufacture trailer products for customers with unique needs. The combined efforts of the MGS team, has have built a reputation of excellence and expertise in the trailer industry.

### Company Capabilities

MGS relies on multiple control systems to achieve consistency in our processes and products.

- Decision-making is guided through Strategic Planning Methodology.
- Certified ISO9001\_2008 Quality Management System
- MGS designated initiatives are identified prioritized and managed by our Project Management System.
- Efficient CADD and PDM systems give MGS' 10 engineers the ability to design, test and control changes throughout the product lifecycle.
- The ERP system provides MGS with accurate, real-time information for costing, scheduling, purchasing, manufacturing, and post-delivery activities.

### Company Designations:

Cage:	58319
Duns:	00-300-4983
NAICS:	336212
	336999
	332999
	364133
Set Aside:	Small Business

### Manufacturing Competencies

- Metal Fabrication – shear, hi-def plasma cut, punch, drill, saw and bend
- Weld - AWS D1.1 Certified
- Paint – Topcoats: CARC and Polyurethane Enamel
- Final Assembly

The end result of the MGS qualifications is the capability to conceive, design, test, and manufacture products of the highest quality, integrity, and reliability available anywhere. These talents and tools are what differentiate MGS from our competitors. We intend to continually build upon them, maintaining a leadership position in the markets we serve.
